

# Introducing Eco-TA

Facilitated by Giles Barrow & Hayley Marshall

We are delighted to offer our online Introduction Eco-TA course scheduled with eastern time zones in mind. Eco-TA was introduced in 2019 and since then we have offered several programmes both in-person and on-line. This is the first time that we have designed an opportunity that is intended to engage a more internationally diverse range of participants.

Eco-TA is an approach to TA practice with the earth in mind. The course is designed for practitioners who have already

been developing outdoor practice with clients or are considering doing so. It will be suitable for practitioners across all fields and combines experiential and taught input. Each workshop involves spending extended time outdoors, as well as working within small group and plenary formats. Participants are expected to attend all three workshops and places are limited to a maximum of 20.

For more details about Eco-TA visit: [ecoTA.dev](http://ecoTA.dev)
